PART B
SUBSPECIALTY (SSP) CODES

1. Navy Subspecialty System

a. The Navy Subspecialty System is an integrated manpower and personnel classification and control system which establishes criteria and procedures for identifying officer requirements for advanced education, functional training, and significant experience in various fields and disciplines. Similarly, the Navy Subspecialty System is used to identify those officers who acquire these qualifications. In addition to identifying qualitative officer manpower needs, the Navy Subspecialty System is used as the basis for generating the Navy's advanced education requirements.

b. The SSP classification codes, criteria for applying these codes and procedures for establishing SSP codes as a part of officer manpower requirements are contained in this manual. The Subspecialty policy is contained in OPNAVINST 1000.16 series.

c. Subspecialty Application Responsibilities. The functions, tasks, and responsibilities of the Navy Subspecialty System Consultants, Coordinators, and Sponsors are contained in OPNAVINST 1000.16 series. CNO (N131) coordinates assignment of SSPs to billets; PERS-440 coordinates assignment of SSPs to officers on active duty and PERS-911 manages SSP coding for reserve officers on inactive duty.

2. Specialty and Subspecialty Concept. The area of specialization (specialty) required in a billet is identified by the designator code. Certain billets requiring additional qualifications beyond those indicated by a designator code are further identified by SSP codes. These codes define the field of application and additional education; experience and training qualifications needed to satisfy special requirements, which meet specific criteria of the SSP validation process. SSPs are applicable to the Unrestricted Line, Restricted Line, and Staff Corps, and are professional development fields secondary to designator specialties.

3. Subspecialty Coding System

a. Subspecialty Code Description. SSP codes are made up of five characters; four numerals and an alphabetic suffix:

(1) The 1st digit indicates the subspecialty Major Area.

(2) The 2nd digit indicates Concentration Area.

(3) The 3rd and 4th digits provide specificity (further specialization as required). Officers and billets must meet the requirements outlined in the new Core Skill Requirements (CSRs) and Educational Skills Requirements (ESRs) as developed by the Subject Matter Expert (SME) or Major Area Sponsor (MAS).

(4) The suffix (5th character) indicates the level of education/training/experience in the subspecialty.

b. Subspecialty Coding Restrictions

(1) LDO/WO. Subspecialty codes are not applied to Limited Duty Officer (LDO) or Warrant Officer (WO) billets or personnel.

(2) Subspecialty codes are not applied to Flag Officer billets.

(3) Master's level and higher education requirements normally will not be applied to Unrestricted Line shore duty billets below the grade of LCDR.

(4) Doctor of Philosophy (PhD)

(a) Within the Unrestricted Line, PhD billet requirements will be validated only for 1000 or 1050 billet designator to reflect the primacy of the education level.

(b) PhD billet requirements expressed for the engineering science disciplines normally will be validated only within the Restricted Line and Staff Corps.

(5) "Proven Subspecialist" codes apply to Unrestricted Line, Restricted Line, and 2300/2900 designator for officers and billets in the grades of LT-CAPT; these codes are awarded to officers upon completion of qualifying billets.

4. Unrestricted Line/Restricted Line Staff Corps Subspecialties

NOTES:

⁽¹⁾ General: These codes describe fields unique to the various Staff Corps specialties. Staff Corps requirements outside these fields will be given the applicable functional field or the appropriate education/training/experience code.

⁽²⁾ The following criteria shall be used in the assignment of subspecialty codes to identify officers in the Medical Department.

Subspecialty 1 - Specialty in which an officer is currently fully credentialed and actively practicing as a primary duty, or the specialty for which the officer is in training. Trainees are not counted in specialty inventories.

Subspecialty 2 - Fully trained, may not be currently credentialed or actively practicing the specialty as a primary duty. Usually the specialty in which trained prior to attaining Subspecialty 1. May require refresher training to become fully credentialed.

Subspecialty 3 - Fully trained, may not be currently credentialed or practicing the specialty. Usually the specialty in which trained prior to attaining Subspecialty 2. May require lengthy refresher training to become fully credentialed.

⁽³⁾ This code (1800) indicates a billet requirement for a Health Care Administrator of the Medical Service Corps with the specified level of education and/or experience in health care administration or related management disciplines.

⁽⁴⁾ This code (1900) indicates a billet requirement for a Nurse Corps officer qualified in any of the disciplines included within the field with the level of education, training, or experience as specified by the suffix.

⁽⁵⁾ This subspecialty (1806) applies to any Medical Department designator.

⁽⁶⁾ This subspecialty (1308) no longer assigned to billets or personnel.

6. Subspecialty Code Billet Application

a. **Subspecialty Code Criteria.** Three types of criteria are evaluated when reviewing the SSP code justification provided on the Subspecialty Coding Validation Request form: (1) General; (2) Specific; and (3) Level. The requirement to satisfy these criteria in the process of assigning a SSP code to a billet is essential to the management and integrity of the SSP system. Where it is not clear that criteria have been met, further justification must be requested. An outline of General, Specific and Level criteria is shown below:

(1) **General Criteria** are defined by DCNO (N1) and subdivided into:

REQUIRED: a naval officer with either operational, technical or managerial experience (cannot substitute with a civilian, LDO, or Warrant Officer). Supervision over personnel with graduate education is required.

(2) **Specific Criteria**

Developed by the Subject Matter Expert and specific to each SSP field. Maintained by the Subject Matter Expert and updated at least biennially before the Subspecialty Validation Review.

(3) **Level Criteria** are defined by DCNO (N1) and unique to each suffix as described below.

b. Suffix Definitions

(1) Graduate Education Non-Proven Suffix

P, D, N-CODES: Requires theoretical knowledge that could not be acquired, under normal circumstances, as a result of progressive or selected assignments, attending short courses, or on-the-job training. This knowledge would be obtained in a formal educational regimen leading to a degree program that meets Educational Skill Requirements (ESRs).

G-CODES: Applies to unique Staff Corps subspecialty billets and personnel only. This knowledge would be obtained in a formal educational regimen leading to a degree program.

(2) Graduate Education Proven Suffix

C, M, Q-CODES: Applies only to Unrestricted Line Officer (URL), Medical, and Fleet Support (1700) officer billets in the grades of LCDR through CAPT. The billet must first satisfy the proper criteria for the SSP education at the base (non-proven subspecialist) level. In general, these billets require experienced senior (proven) officers of the SSP system. The billets should be considered as follow-on billets for basic SSP billets.

F- CODE: Applies to unique Staff Corps subspecialty billets and personnel only. The billet must first satisfy the proper criteria for the SSP education at the base (non-proven subspecialist) level. In general, these billets require experienced senior (proven) officers of the SSP system. The billets should be considered as follow-on billets for basic SSP billets.

(3) Doctorate Level Criteria. C and D coded billets:

D-CODE: Requires comprehensive knowledge of specific theories, principles, processes and/or techniques certified through the acquisition of the doctorate for optimum performance of duty; also requires the conception, implementation, appraisal, or management of exceptionally complex Navy and/or DoD programs.

C-CODE: All of the D-code criteria are applicable; additionally, the billet requires a proven subspecialist at the doctorate level.

(4) Post-Master's Degree Level Criteria. M and N coded billets.

(a) Engineer's Degree Level Criteria

N-CODE: Requires both engineering experience and comprehensive knowledge of scientific theories and engineering principles, processes and/or techniques certified through the acquisition of the engineer's degree for optimum performance of duty; also requires the conception, appraisal, or management of exceptionally complex Navy and/or DoD programs. The billet requires the application of the most modern techniques in certain scientific fields, such as: hydrodynamics, aerodynamics, fluid mechanics, thermodynamics, structural mechanics, nuclear physics, or electronics.

M-CODE: All of the N-code criteria are applicable; additionally the billet requires a proven subspecialist at the engineer's degree level.

(b) Other Post-Master's Degree Level Criteria

N-CODE: Requires significant educational experience and comprehensive knowledge of current theories and established principles, processes, and/or techniques certified through the acquisition of the post-master's degree for optimum performance of duty; also requires the conception, appraisal, or management of exceptionally complex Navy and/or DoD programs. These programs usually involve plans, policy, and/or decisions at the highest levels of military and/or government services. Additionally, the billet requires the application of the most modern techniques in certain fields, such as: intelligence, management, political-military science, strategic planning, applied logic, operations analysis, logistical analysis, operations systems, communications, computer technology, environmental science, or law.

M-CODE: All of the N-code criteria are applicable; additionally the billet requires a proven subspecialist at the post-master's degree level.

- (5) Master's Degree Level Criteria. P and Q coded billets.

P-CODE: Requires extensive knowledge of theories, principles, processes and/or techniques certified through the acquisition of the master's degree for optimum performance of duty; also requires the conception, implementation, appraisal, or management of complex Navy and/or DoD programs.

Q-CODE: All of the P-code criteria are applicable; additionally the billet requires the combination of both professional experience and proven subspecialist at the master's degree level.

- (6) Degree Program Not Meeting All Education Skill Requirements. F and G coded billets.

Applicable to unique Staff Corps subspecialty codes. F and G are used to denote officers who enroll in a degree program which does not fully meet the Navy Education Skill Requirement (ESR) criteria in a subspecialty.

F and G coded billets require theoretical knowledge obtained in a formal educational regimen leading to a degree program which may not meet all of the educational skill requirements. F-coded billets require a proven subspecialist at the G-coded level.

- (7) Baccalaureate Level Criteria. E-coded billets.

E-CODE: Requires a basic knowledge of theories, principles, processes, and techniques certified through the acquisition of the baccalaureate degree with major concentration in the SSP field for optimum performance of duty; also requires the performance of analytical work, the compilation of related reports and/or the effective assembly of information essential for the implementation and management of Navy and/or DoD programs.

- (9) Experience Level Criteria. R and S coded billets.

S-CODE: Requires the combination of professional experience and knowledge of theories, principles, processes, and/or techniques in the SSP field; also requires knowledge in the SSP field obtained through training or prior successful service in the SSP field.

R-CODE: All of the S-code criteria are applicable; additionally the billet requires a proven subspecialist at the experience level.

- (10) Training. T coded billets.

T-CODE is for people only in OAIS while they are in training. Not applicable for billets.

7. Subspecialty Suffixes.

Suffix Definition

- B Validated requirement for master's or higher level of education but second priority to P, Q, M, N, C, or D-coded billets; used when subspecialty code compensation has not been identified. Applies only to billets.
- C PhD level of education - proven subspecialist
- D PhD level of education
- E Baccalaureate level of education in a field applicable to the subspecialty. Assigned to billets in unique areas that need specific background to perform billet objectives.
- F Master's degree not fully meeting Navy criteria in a degree program - proven subspecialist (unique Staff Corps subspecialties).
- G Master's degree not fully meeting Navy criteria in a degree program (unique Staff Corps subspecialties).

Suffix
Definition

- J Fully trained (Medical Only)
- K Board certified/Board equivalency certified (Medical Only)
- M Post-master's graduate degree level of education - proven subspecialist
- N Post-master's graduate degree level of education
- P Master's level of education
- Q Master's level of education - proven subspecialist
- R Significant experience - proven subspecialist
- S Significant experience
- T Denotes training billet which qualifies incumbent for an S-code
- V Formal preparation beyond basic professional education in a program approved by Bureau of Medicine and Surgery (Medical only)

8. Recommendations to Establish, Delete or Revise Subspecialties

- a. Recommendations to establish a SSP code must include the following:

- (1) Recommended SSP code and title.
- (2) Any corresponding special requirements to be included in this manual or OPNAVINST 1000.16 series.
- (3) List of designator(s) that can hold the SSP code, including minimum and maximum pay grades applicable to officers and billets.
- (4) Funding implications including curriculum development, education skill requirements (ESR), instructor workload, Military Construction (MILCON), OPN costs, and student/training billets needed to maintain curriculum. Recommend command consult with Officer Policy and Programs Section (N71C) for guidance on ESRs.
- (5) Number and location of billets by activity name, activity Unit Identification Code (UIC), Billet Identification Number (BIN), Billet Sequence Code (BSC), billet title, designator and grade, proposed SSP, any coding on the billet at this time, and minimum number of officers required at Naval Postgraduate School (NAVPGSCOL) to support a curriculum. Recommend command consult with the NAVPGSCOL and the Officer Subspecialty and Graduate Education Management Section (CNO N131E).
- (6) Information on how the qualifications are presently identified.
- (7) The specific degree program required to earn this SSP. (This item is mandatory.)
- (8) Problem areas (current and future).
- (9) Justification: a statement as to why existing expressions (i.e., NOBC, AQD, SSP, grade, or designator) or current method of identifying the authorizations are insufficient without the proposed SSP code; other historical or amplifying information.
- (10) Any Reserve implications.
- (11) Major Area Sponsors and Subject Matter Experts.
- (12) Point of contact (include telephone (both commercial and DSN) number, telefax number, and e-mail address).

- b. Recommendations to delete a SSP code must include the following:

- (1) Code number and title of the SSP to be deleted.

- (2) Background, reason for deletion.
 - (3) Information on how to recode billets and personnel presently coded with this SSP:
 - (a) Billets. Recoding of billets should be done during the biennial revalidation process if possible. Include a Data Processing Services Request (DPSR) for recoding of billets if not done during the revalidation.
 - (b) Personnel. Personnel with this SSP will either be phased out through attrition or will transfer to another SSP. Include in request how you want the personnel with this SSP to be handled; pre-staff through the Professional Development Education and Subspecialty Branch (PERS-440).
 - (4) Indicate Reserve implications.
 - (5) Indicate extent of coordination with Major Area Sponsors, Subject Matter Experts, Claimants, etc. Recommend command consult with the NAVPGSCOL and the Officer Subspecialty and Graduate Education Management Section (CNO N131E).
 - (6) Point of contact (include telephone (both commercial and DSN) number, telefax number, and e-mail address).
- c. Recommendations to revise a SSP code must include:
- (1) Code number and title of SSP to be revised.
 - (2) Background, reason for revision.
 - (3) Recommended changes.
 - (4) Any corresponding special requirements to be included in this manual or the OPNAVINST 1000.16 series.
 - (5) List of designators that can hold the SSP code including minimum and maximum pay grades applicable to officers and billets.
 - (6) Funding implications including curriculum development, education skill requirements (ESR), instructor workload, MILCON, OPN cost, and student/training billets needed to maintain curriculum. Recommend command consult with Officer Policy and Programs Section (N71C) for guidance on ESRs.
 - (7) Number and location of billets by activity name, activity Unit Identification Code (UIC), Billet Identification Number (BIN), Billet Sequence Code (BSC), billet title, designator and grade, proposed SSP, any coding on the billet at this time, and minimum number of officers required at Naval Postgraduate School (NAVPGSCOL) to support a curriculum. Recommend command consult with the NAVPGSCOL and the Officer Subspecialty and Graduate Education Management Section (CNO N131E).
 - (8) Information on how the qualifications are presently identified.
 - (9) Education curriculum and ESR that support requirements.
 - (10) Problem areas (current and future).
 - (11) Justification: a statement as to why existing descriptors (i.e., NOBC, AQD, SSP, grade, or designator) or current method of identifying the requirements are insufficient without the proposed subspecialty code change; other historical or amplifying information.
 - (12) Any Reserve implications.
 - (13) Point of contact (include telephone (both commercial and DSN) number, telefax number, and e-mail address).
 - (14) Major Area Sponsors and Subject Matter Experts.
 - (15) Information on how to recode billets and personnel presently coded with this SSP:
 - (a) Billets. Recoding of billets should be done during the biennial review process if possible. Include a Data Processing Services Request (DPSR) for recoding of billets if not done during the revalidation.

(b) Personnel. Personnel with this SSP will either be phased out through attrition or will transfer to another SSP. Include in request how you want the personnel with this SSP to be handled; pre-staff through the Professional Development Education and Subspecialty Branch (PERS-440).

(16) Extent of coordination with Major Area Sponsors, Subject Matter Experts, Claimants, etc.

d. Submit recommendations to establish, revise or delete SSPs via the appropriate chain of command (include CNO (N131E) to Commanding Officer, Navy Manpower Analysis Center, ATTN: Code 10, 5720 Integrity Drive, Millington, TN 38054-5011.
